A range of products designed down to the tiniest detail to ensure ease of use and extreme reliability whether it be at home, garden or for tradesman. Ideal high-pressure washers for all the applications for the target audience: versatile and light weight, they are excellent for removing dirt from paths, balconies, cars, bicycles and motorbikes, and are an essential tool for gardening enthusiasts. They are also perfect for effortlessly removing moss and deposits left by time from fences or outdoor furniture, and cleaning poolside patios, gazebos and sunbeds. This is why ARBC High Pressure Washers makes a real difference: it has the right solution for every type of need.

# PERFORMANCE INDICATORS

**BLUE CLEAN LEVEL** guides you in the choice of the best products for all cleaning needs, by placing a cleaning level icon next to every high pressure washer or vacuum cleaner, together with its applications. Every product has its own technical, stylistic and functional characteristics, to satisfy specific customer requirements, such as ease of use, compact size, labour-saving, weight, noise output and agility. With Blue Clean Level we direct every customer towards the ideal combination: this is why ARBC products make a real difference.

## BLUE CLEAN FACTOR

Commercial configuration, to deliver the best solution to your cleaning needs. Products with the BLUE FACTOR are best-in-class in cleaning power, ease of use and technical performances. The perfect mix for all your cleaning requirements.

# APPLICATIONS

**ARBC RANGE HIGH PRESSURE WASHERS** are the perfect solution for cleaning spaces around the house: washers halve cleaning times, making the whole process simple and easy - thanks also to a wide range of accessories designed for the various fields of use. One example is the patio version, with integral detergent tank, ideal for cleaning large areas such as patios and swimming pool surrounds, which provides gleaming, uniform results in a single pass! In another application, the powerful lances with rotopower jet at the appropriate pressure setting ensure the best results on outdoor furniture, which is constantly exposed to the weather and often accumulates stubborn dirt, with the greatest of ease.

# DUAL SPEED SYSTEM INNOVATION RANGE

**DSS** is the innovative technological system which allows you modulating the pressure washer's performance through the use of a convenient selector. The performance of the system can thus be selected based on the needs of use: the **MAX SPEED** mode allows you to take advantage of all the power of the high-pressure cleaner to meet the most demanding requirements, the **ECO SPEED** mode can reduce by 30% of the energy consumption when washing power demands are less relevant.

Using the **POWER SWITCH** it is possible to select the **ECO SPEED WASHING** and **MAX SPEED WASHING** modes, to modulate the performance level of the pressure washer, adapting it to lighter cleaning needs, with a considerable saving of water and energy (up to 30%), or more intense depending on the work to be done.

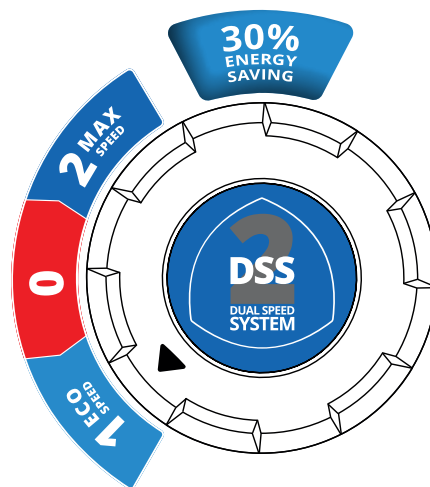

## 30% ENERGY SAVING

### ECO SPEED

**30% ENERGY SAVING**

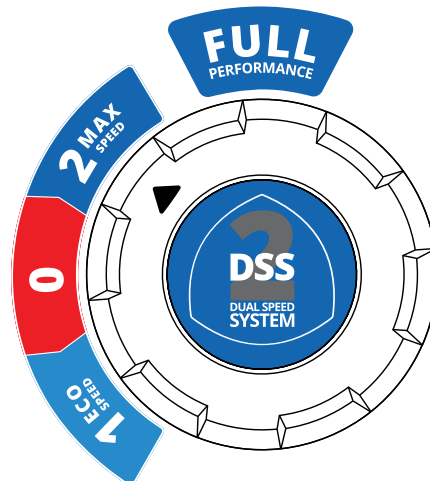

By activating **ECO SPEED** mode you can dedicate yourself to cleaning non-aggressive dirt on external wooden surfaces, bicycles, wooden garden furniture, external fabrics, with **optimized energy consumption** and a better compromise between washing / consumption effectiveness.

### MAX SPEED

**FULL PERFORMANCE**

By activating **MAX SPEED** mode you can dedicate yourself to cleaning aggressive dirt on stone, concrete and bricks, metal railings and gates, work and gardening tools, vehicles) with **standard energy consumption**.

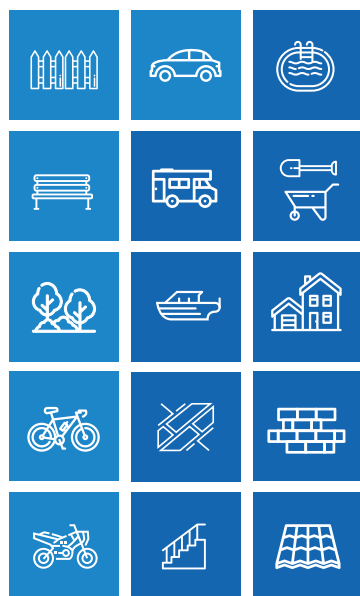

## DUAL SPEED SYSTEMS

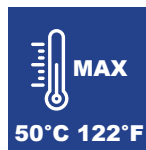

# Innovation Range

# DSS 2.0 PE

## General Features

- Two-wheel trolley with handle and static hose reel (6m HP hose)
- 3 Axial stainless steel pistons wobble-plate pumps
- Tempered stainless steel pistons
- Automatic by-pass valve with pump head pressure discharge
- Dual speed single-phase universal motor with thermal protector
- Electric cable length 5m

# DUALHYGIENE SYSTEM INNOVATION RANGE

**DHS** is the innovative technological system AR patented. DHS "2in1 Washer&Sprayer" is the 2in1 High Pressure Washer. Dual fuction in one product. By rotating the switch on **SPRAYING MODE**, thanks to the dedicated lance and tank, it starts the spraying phase of the previously introduced product, which allows to sanitize, pre-washing, gardening and to do pest control. By rotating the switch on **WASHING MODE** it starts the cleaning phase. The powerful pump and its lance, allow to an easy clean of the pre-treated surfaces and/or the dirt removal on objects and areas.

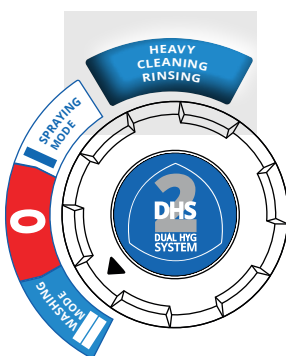

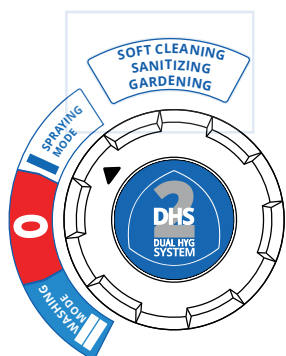

## SPRAYING MODE:

Exploit the electric vibrating single-phase pump for spraying on the surfaces the product into the tank. Ideal for sanitizing, gardening, pre-washing and to do pest control.

## WASHING MODE:

Exploit the pump power to get rid of the toughest dirt from large surfaces and to rinse the previously treated one.

## Dual function, Dual efficiency.

### SPRAYING MODE

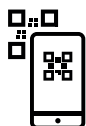

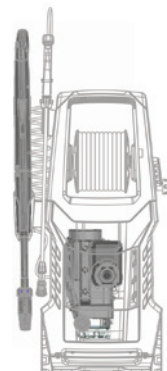

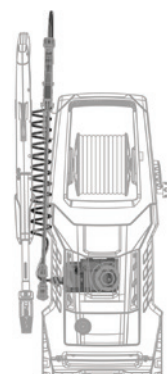

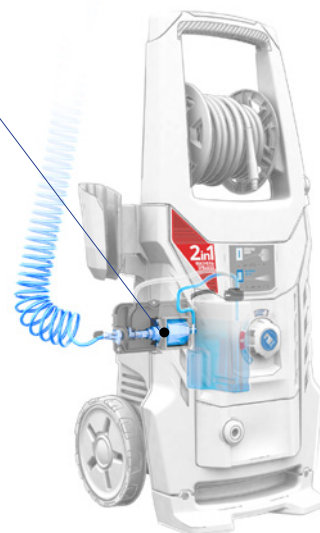

Activate **I Spraying Mode** to sanitize, pre-wash or to do pest control. The perfect model for sanitizing and pre-washing external surfaces and garden furniture, for doing mosquito control and for garden applications such as spraying.

### WASHING MODE

Activate **II Washing Mode** to use the lance to wash, clean and rinse the previously treated surfaces. With its powerful motor pump it's suitable to remove dirt from fences, walls, bicycles, motorcycles and cars.

## DUAL HYGIENE SYSTEMS

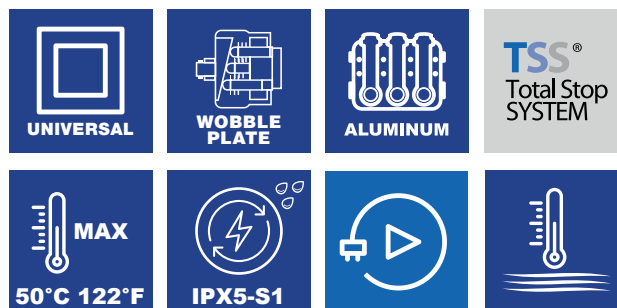

# Innovation Range DHS 2.A

**2in1**  
WASHER & SPRAYER

## General Features

- Two-wheel trolley with handle and static hose reel with super flexible hose (6 m HP hose)
- Washing lance
- Spraying lance
- 3 Axial stainless steel pistons wobble-plate pumps
- Tempered stainless steel pistons Automatic by-pass valvewith pump head pressure discharge
- Universal motor and electric single-phase vibrating pump
- Electric cable length 5m

# DUALTECH SYSTEM INNOVATION RANGE

**DTS** is the innovative technological system, AR patented, which gives you the washing power of two motorpumps when you need it. This system achieves notably superior results when compared to those obtained with a single pump pressure washer. The combined flow rate - triggered by the Fast Cleaning mode - enhances washing results, by intensity and extent, reducing the amount of cleaning time required. Thanks to the combined flow rate, DTS doubles the distance that can be reached by the water jet - up to 5m - allowing to easily clean even extended vertical surfaces with a domestic pressure washer.

## **ERGONOMIC PU SWITCH CONTROL:**

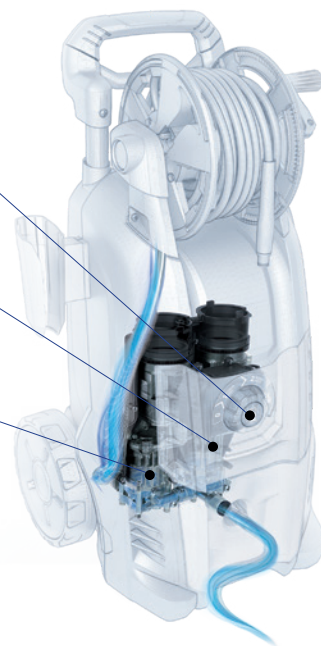

Allows to choose the most suitable flow rate to fulfill the cleaning task: normal or improved flow, thanks to the double pumps synergy.

## **ECO SOFT CLEANING MODE:**

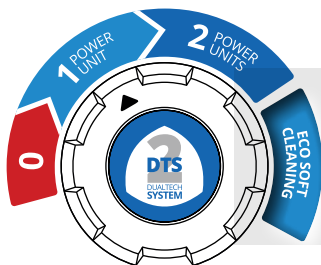

Activate **1 POWER UNIT** when the task requires light dirt removal or to wash small surfaces without wasting extra water and energy.

## **FAST CLEANING MODE:**

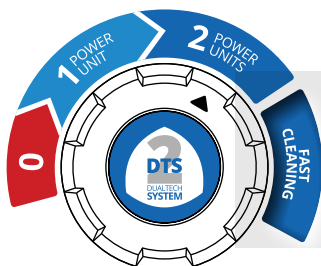

Exploit the synergy of **2 POWER UNITS** to get rid of the toughest dirt from large surfaces or to clean walls up to 5m height in a short amount of time.

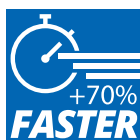

## Improve performance. Save time.

Activate **1 POWER UNIT** when you need to remove light dirt from bicycles, motorcycles, cars or you want fences, outdoor furniture and sun shades to seem like new.

Exploit the synergy of **2 POWER UNITS** together when you need to get rid of the toughest dirt and stains from stone and cement flooring, brick walls and sidings, roofs or construction applications.

**Stronger flow rate  
for a stronger  
washing power  
performance.**

**Double water jet, halved cleaning time with Twin Nozzle.**

Twin Flow features the ultimate must-have lance accessory, included inside the packaging, that will boost wide surfaces cleaning performance, saving your time and effort. It is perfect to wash concrete or brick walls, floorings, pools in a very efficient way.

## DUAL TECH SYSTEMS

## CARS AND BOATS

Ready-to-use cleaner. Ideal for windscreens and delicate metal surfaces. Removes oily dirt without leaving smears. Pleasant peppermint scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 41872

11e

## BICYCLE AND MOTORBIKES

Ready-to-use cleaner. Ideal for cleaning delicate surfaces such as the paintwork of bike and motorbike frames. Removes mud and oil residues to perfection. Pleasant floral scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 41871

11e

## WOOD SURFACES

Ready-to-use cleaner. Cleans all treated and untreated decking and wood floors without damaging surfaces. Pleasant vanilla scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 4348

11e

## SOLAR PANELS

Ready-to-use cleaner. Ideal for cleaning solar panels and photovoltaic systems. Pleasant lavender scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 43487

11e

## SYNTHETIC GRASS

Ready-to-use cleaner. Ideal for cleaning artificial turf surfaces. Removes the dirt that builds up at the base without damaging the turf's consistency or shape. Pleasant wild pine scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 43484

11e

## WALLS AND STONES

Ready-to-use cleaner. Cleans natural and dressed stone surfaces and brickwork facades, removing even the most stubborn dirt. Savon de Marseille scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 43486

11e

## AWNINGS

Ready-to-use cleaner. Ideal for cleaning fabric and plastic blinds. Easily removes the dirt that builds up on outdoor structures. Pleasant citrus scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 43483

11e

## GLASS

Ready-to-use cleaner. Ideal for cleaning clear or reflecting glass surfaces. Removes dirt without leaving smears or streaks. Delicate, clean scent. Formula free from EDTA and NTA and preservatives without formaldehyde or halogens.

Code: 43488

11e

## HYG

Ready-to-use sanitizing detergent for external home surfaces and furnitures. Use it with your high pressure washer to reduce the bacterial count. HYG gives a nice cleaning lemon scent. It works mechanically with dirt removal.
